## Software Developer

## About Me

### Computer Enthusiast

[First Generation College Student](#)

I always have had a fascination with computer programming. Starting from age 10 armed with an Ubuntu powered laptop, I began my journey as software developer. This passion has met a recent apex when I graduated from Allegheny College in May of 2019. However, this is not the end of my journey as I wish to continue my passion in the industry of software engineering.

## Education

### 2015 - 2019 Bachelor's Degree in Computer Science

[Allegheny College](#)

Software Engineering.

Main subjects: Software Engineering, Artificial Intelligence, Distributed Cloud Systems, Web Development.

### 2011 - 2015 High School Diploma

[McDowell High School](#)

Secondary School.

Main subjects: Computer Science, Game Design, AutoCAD, Engineering.

## Software Projects

### GatorGrader

[Allegheny College](#)

Python tool for the automated grading of Computer Science projects hosted on GitHub. *Relator: Dr. Gregory Kapfhammer.*

### Pynesthesia

[Allegheny College](#)

Python project which allows for the creation of a simple tile based game using an image as the input. *Relators: Prof. Janyl Jumadinova, Prof. Aravind Mohan.*

### Ardbot

[Allegheny College](#)

A multi-state robotic client designed for the autonomous playing of the popular e-sport game Rocket League. *Relators: Prof. Janyl Jumadinova.*
